EXPERIENCE

Engineering Manager

Schibsted Product & Technology

📅 Nov 2016 – Ongoing 📍 Barcelona, Spain

- Led the Notifications team to develop a mature product, used in several sites across the company for delivering notifications with high engagement impact.
- Contributed and lead experimentation to develop new features in collaboration with other teams.

Tech Lead

Schibsted Product & Technology

📅 Nov 2015 – Nov 2016 📍 Barcelona, Spain

- Design, develop and coordinate the Notifications team to create a scalable, performing service.
- Defined and prioritized the product requirements for the notifications service defining its requirements and applying an integration roadmap.

Android Tech Lead

Schibsted Product & Tech

📅 March 2014 – Nov 2015 📍 Barcelona, Spain

- Lead the Android Mobile team to develop the NextGen app.
- Coordinated the different local development teams for the integration and branding of the NextGen app for the local markets.

Software Engineer

Freelance

📅 June 2013 – Feb 2014 📍 Barcelona/Girona, Spain

- Software development as a freelance. Mostly native mobile apps on Android and interactive software.
- Developed a custom personalization layer for a family friendly tablet (for FACTIS/Milan: <https://www.milan.es/>).

Software Engineer/Researcher

Centre Easy Innova/Universitat de Girona/Fatronik-Tecnalia

📅 Apr 2008 – Jun 2013 📍 Girona/Gipúzkoa, Spain

- Several tasks as a researcher and software engineer during a PhD process.
- Main research topic in Artificial Intelligence/Virtual Organizations and Trust & Reputation systems.

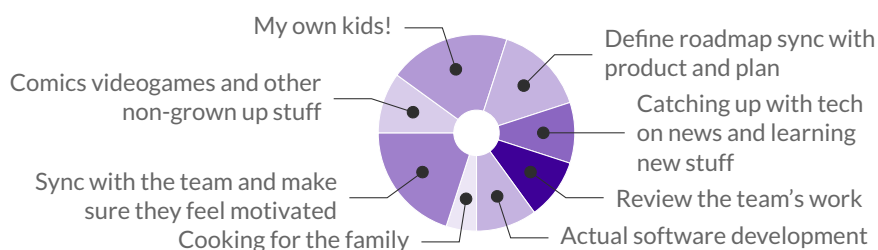

Software Developer

Freelance/Inoxpa

📅 2003 – 2008 📍 Girona, Spain

- Several small software (web and desktop) development projects.

A REGULAR WEEK

HIGHLIGHTS

Never feared to try new challenges and learn

did scientific research, tried freelance development and now in software engineering

Always open

to receive feedback and receiving criticism

Focus in people and collaboration

driving teams to take new projects, learn from experience and share to other teams

Constantly growing

full stack developer from mobile development to lead and manage a backend team

STRENGTHS

Positive Attitude

Persuasive

Fast Learner

Motivator

Collaborative

Hands-on

Full Stack

User Oriented

Android Development

Spring MVC

Spring Boot

Java

Kotlin

Groovy

Rust (as hobby)

LANGUAGES

Spanish

English

Catalan

French

EDUCATION

M.S. in Computer Science

Universitat de Girona

📅 2007 – 2009

Computer Engineer, computer science

Universidad Diego Portales, Chile

📅 1996 – 2003
